

### 3 INPUT WALL MOUNT CONTROL

The RMI-CS remote control is intended for use with an Ivie Technologies iFlex mixer in controlling a satellite feed input. The RMI-CS has an illuminated on/off button for switching the satellite feed function on and off, and a rotary level control for controlling the audio level of the feed. The RMI-CS is mounted on a "decora" wall plate, intended for use with standard decora back boxes and cover plates. An RJ-45 connector on the back provides connection to the iFlex mixer via a single CAT5e or better cable.

### FEATURES

- Illuminated on/off button.
- Single CAT5e or better cable from RMI-CC to the iFlex mixer
- Hookup is a standard RJ-45 connector
- Size - 4 x 1 1/2 x 1 1/2 in.
- Weight - 1.3 oz.

**WARRANTY (Limited):** Ivie iFlex products are guaranteed for five (5) years from date of original purchase against malfunction due to defects in workmanship and materials. If such malfunction occurs, unit will be repaired or replaced (at our option) without charge for materials or labor, if delivered shipping prepaid, to an authorized Ivie service facility. Warranty does not cover finish or appearance items or malfunction due to abuse, modification, lightning, or operation at other than specified conditions. Repair by other than Ivie or its authorized service agencies will void this guarantee. Products are sold on the basis of specifications applicable at the time of malfunction. Ivie shall have no obligation to modify or update product once sold.
