

The RMPC-6 is a 1U rack mount port expansion device for iFlex audio mixer controls. The RMPC-6 provides 6 control ports for iFlex Smart™ controls, analog controls, and custom controls for use with Ivie iFlex audio mixers. Controls are connected to the RMPC-6 via CAT5E or better cable, with RJ45 connectors. With only a 1" rack depth, the RMPC-6 is designed to fit in the back of the rack, in the same rack slot as the audio mixer. The RMPC-6 is connected to the iFlex audio mixer via a single CAT5E or better cable.

FEATURES

- Single CAT5e cable run to the mixer
- Provides 6 expansion control ports
- Connects iFlex Smart™ controls, analog controls, and custom controls to iFlex audio mixers
- Simplified control programming via Sonata programming interface.
- Size - 19" x 1 3/4" x 1"
- Weight - 1.5 lbs.

WARRANTY (Limited): Ivie iFlex control products are guaranteed for five (2) years from date of original purchase against malfunction due to defects in workmanship and materials. If such malfunction occurs, unit will be repaired or replaced (at our option) without charge for materials or labor, if delivered shipping prepaid, to an authorized Ivie service facility. Warranty does not cover finish or appearance items or malfunction due to abuse, modification, lightning, or operation at other than specified conditions. Repair by other than Ivie or its authorized service agencies will void this guarantee. Products are sold on the basis of specifications applicable at the time of malfunction. Ivie shall have no obligation to modify or update product once sold.
